SUMMARY

Computer Science and Engineering undergraduate with strong interest in Software Development and problem solving. Proficient in C++ and Java with hands-on experience in web development using HTML, CSS, and JavaScript. Skilled in Data Structures and Algorithms with focus on writing efficient and optimized code. Currently developing HiWorko – a workforce hiring platform and actively seeking Software Development Engineer (SDE) Internship opportunities.

PROJECTS

HiWorko – Workforce Hiring Platform (In Progress)

- Developing a web platform that connects employers with local workers for quick hiring
 - Employers can post jobs with details such as job type, duration, payment, and location
 - Workers can browse available jobs and accept or reject job offers through their dashboard
 - Implementing real-time notification and messaging system between employers and workers
 - Focused on improving hiring efficiency and digitizing India's informal workforce sector
- Technologies: HTML, CSS, JavaScript, Next.js

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Mahatma Jyotiba Phule Rohilkhand University (MJPRU)

2024 – 2028 (Expected Graduation: 2028)

TECHNICAL SKILLS

- Programming Languages: C++, Java, Python
- Web Technologies: HTML, CSS, JavaScript
- Core Concepts: Data Structures and Algorithms
- Tools: Git GitHub
- Soft Skills: Problem Solving, Team Collaboration, Communication Skills

CERTIFICATIONS

- Alpha Course – Data Structures and Algorithms with Java, Apna College
- AI Tools Workshop (1 Day Certification)
- Volunteer Certificate – HERlytics
- Volunteer Certificate – AI Summit

ADDITIONAL INFORMATION

- Creating technology and programming content (CodeEdge & Clarionix)
- Participating in hackathons to improve problem solving and teamwork
